Taking the Bailong Elevator to **Yangjiajie Nature Reserve**, which is essentially, in particular, a large, shrub-and-tree-clad, platform-like block-and-obelisk landscape with a hollowed-out valley floor, with a pristine mountain stream running through it, at its center. James Cameron, the maker of the Hollywood film, **Avatar**, was inspired by **Wulingyuan Scenic Area** in general – and by Yuanjiajie Scenic Area in particular, insist some – in creating the floating **Hallelujah Mountains** of his famous, virtual-world film. Since the view of such a place when it is bathed in thick mists, where only the upper parts of the mountain-peak remnants are visible, can easily give the illusion of floating mountain peaks. Thereafter, visiting the #1 Natural Bridge in the world. It's your option to enjoy the an amazing musical show by sitting at the base of the same towering mountains surrounded by an oval open-air stage as the sun set. Action occurs everywhere and we were carried away with the fantastic music, brilliant singing, passionate acting, and stunning staging.

Day 4: Meals: B - L - D
Today, let's experience the traditional culture of Tujia minority. **Tujia Folk Customs Park**, is a replica of a typical Tujia village. It was built in 2000 with the intention to introduce visitors to the customs and traditions of the Tujia ethnic minority. It covers an area of 5 hectares. It is a large-scale cultural tourist attraction, in which the tourists can experience Tujia people's folk custom in various aspects such as architecture, food, agriculture, military art etc. The main attractions in the park are the "village square" where key performances such as the Maogusu Dance, a ceremonial dance that was part of a sacrificial ceremony are performed. After lunch, continue on to explore the natural wonder. **Tianmen Mountain National Park**, is a newly developed attraction which is located only 8 kilometers from the city of Zhangjiajie in northwestern Hunan. Tianmen Mountain boasts a primitive forest, numerous rare tree species, medicinal herbs and an abundance of fauna. One of the main attractions of Tianmen Mountain is the Tianmen Cave. It is a natural water-eroded cave with the highest elevation in the world with a peculiar huge hole in the mountain but people call it a cave and it has become a major attraction. Many rock climbers enjoy climbing the cave walls.
